Education

Wilfrid Laurier University

Honors Bachelor of Science in Computer Science

Sep. 2022 – Present

Waterloo, ON

Relevant Coursework

- Data Structures
- Database Management
- Machine Learning
- Algorithm Design
- Software Engineering
- Artificial Intelligence
- Computer Networks
- Object-oriented Programming

Technical Skills

Languages: JavaScript, Python, Java, SQL, HTML/CSS

Developer Tools: VS Code, Eclipse, Google Cloud Platform, Render

Technologies/Frameworks: React, Git, Node.js, Express.js, Socket.io

Projects

Full-Stack Chat Application | *React, Node.js, Express, MongoDB, Socket.io, Cloudinary, Render, DaisyUI* June 2025

- Developed a real-time chat platform supporting instant messaging and image sharing via Socket.io and RESTful APIs.
- Implemented secure user authentication with profile management, storing user profile pictures using Cloudinary.
- Designed a responsive front-end with React and customizable themes using DaisyUI.
- Deployed the application on Render, ensuring reliable production hosting and scalability.

Pokemon Battle Simulator | *React, Node.js, Express, PostgreSQL, Socket.io* September 2025

- Built a fully functional battle simulator with a team builder that allows users to create, save, and manage Pokémon teams.
- Implemented real-time multiplayer battles and in-app messaging using Socket.io for low-latency communication.
- Developed a persistent backend with PostgreSQL and deployed a responsive React front-end for seamless user experience.
- Integrated CSS animations for attack effects, health bar transitions, and dynamic UI feedback to enhance player immersion.
- Designed a responsive interface with real-time stat tracking and turn queues, simulating authentic Pokémon gameplay mechanics.

Experience

Pro Hockey Life

October 2023 – Present

E-commerce Associate

Kitchener, Ontario

- Streamlined inventory tracking processes using management systems, ensuring accurate accounts of stock.
- Collaborated with e-commerce teams to optimize order fulfillment workflows, reducing processing time.
- Troubleshooted and resolved discrepancies between digital orders and physical inventory, ensuring seamless synchronization in e-commerce systems.

Leadership / Extracurricular

Korean Students' Association

October 2024 – Present

President

Wilfrid Laurier University

- Founded the Korean Students' Association, managing and growing a team of over 25 students.
- Oversaw all operations, including event planning, budgeting, marketing, and member engagement, ensuring the club's continued growth and success.
- Organized and executed large-scale events and cultural activities, increasing student participation and fostering a sense of community.
- Developed and managed the club's annual budget, allocating resources efficiently and maintaining financial transparency.
- Represented the club at university events, meetings, and conferences, advocating for student interests and promoting the club's mission.
